people come into our lives for a reason
bringing something we must learn
we are led to those who help us most to grow
& we help them in return
i don't know if i believe that's true

Looks like all the Nintendo controllers are taken so....

Takes our blaster that has a PS3 controller attached to it and fires normal shots when you press square, water when you press x, shards of ice when you press circle and rocks if you press triangle, along with goggles made out of a PS2 controller

I'll have to make do with what I have
